RIDGE AND FURROW ROOFS, GREENHOUSES, RAILWAY STATIONS, ENGINE SHEDS, MILLS, MARKET HALLS, AND PUBLIC BUILDINGS GENERALLY.

The PATENT ROUGH PLATE is manufactured in sizes expressly for Ridge and Furrow Roofs, giving a span of from 5 to 10 feet, at a price not exceeding weight for weight that of common Crown Glass. Its being transparent, blinds are unnecessary, and when used in Greenhouses no overshading occurs; its UNSURPASSED STRENGTH renders it eminently suitable for the Glazing of Conservatories and Roofs of all kinds; also Factories, Warehouses, &c. for which purposes it is supplied in squares of all sizes, from 6 by 6 inches and upwards.
